

## THE MILESTONE INSURANCE

**An insurance that keeps its relevance throughout your life by taking the big milestones with you.**

Life goes from one milestone to another, from birth, through graduation, work, marriage, children, buying a house ... until death. Once you marry and give birth to children, you make a commitment to those family members. And that's when death insurance is often considered. But what if you have already developed an illness? Then, it may be difficult to increase your death cover.

That is why Expat & Co has come up with the **Milestone Insurance**. You determine in advance the increases to be applied upon reaching your Milestone (marriage, birth, mortgage), and regardless of whether or not you are legible for insurance at that time, we guarantee your cover.

**Take control, and plan your life so that nothing comes in between.**
